

A continuing review of the Prescription Drug Monitoring Program (PDMP) from January 2014 through March 2014 reveals the following about your prescribing habits:

You have been identified as an OUTLIER\* with respect to the number of prescriptions written and/or quantity of pills prescribed for one or more of Benzodiazepine, Carisoprodol, Hydrocodone, Oxycodone, and Other Pain Relievers. Please review your data below.

\*1, 2, or >3 Standard Deviations above the mean for Primary Care prescribers in your county

**312** of your patients received 100 or more MEDDs

**172** of your patients are receiving a combination of Opioids and Benzodiazepines

**429** of your patients received opioids from you

**74** of your patients are receiving a combination of Opioids and Carisoprodol

**8** of your patients received controlled substances from five or more doctors

**5** of your patients received controlled substances from five or more pharmacists

**36** of your patients are receiving a combination of all three of Opioids, Benzodiazepines, and Carisoprodol

You are currently signed up for access to the Prescription Drug Monitoring Program (PDMP)
