Agenda

- Introductions
- Integrating with RxCheck
- New Features to further simplify Integration
- Kentucky Integrations Lessons Learned
- Questions

Integrating with RxCheck

- RxCheck encourages integration
- Integration is relatively easy and getting easier
- No Annual or Recurring cost to Provider or Health Facilities

Who can Integrate with RxCheck?

- Any health care entity approved by a connected state PDMP
- No direct connections are currently allowed

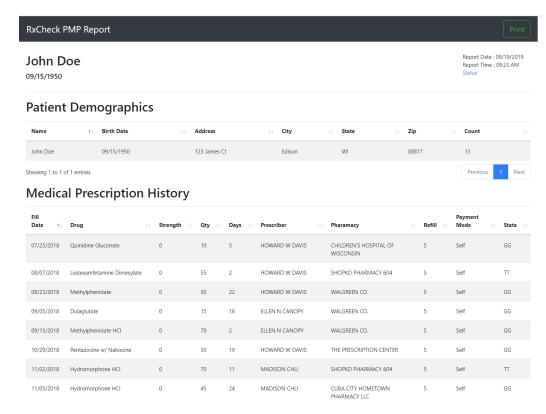

New Features to Ease Integrations

- Health Entity onboarding with approval workflow
- RESTFul HTML Endpoint
- Federated query support for HTML Endpoint
- Support FHIR standard in SRS
- Throttle messages coming into PDMP
- PDMP real-time analytics dashboard

Sample RxCheck HTML Report

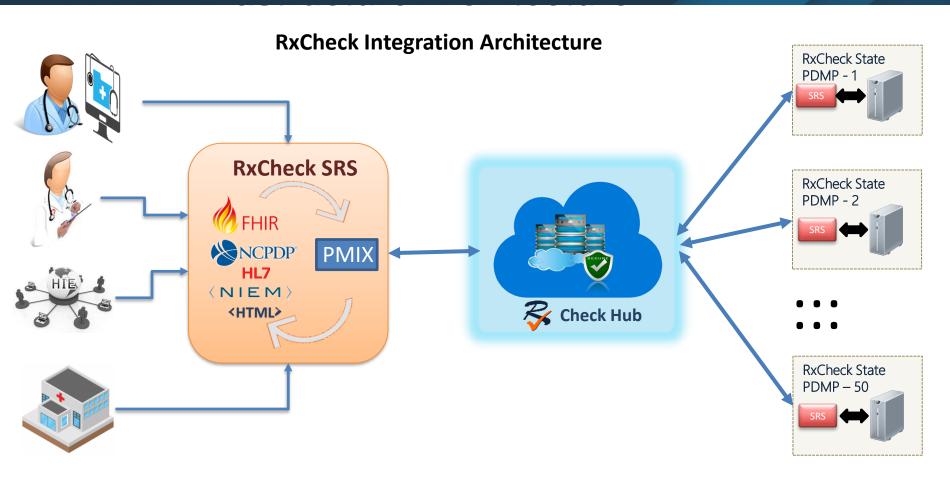

Response Status		×
PMP	Status	
GG	Provided	
тт	Provided	
KK	NoData	
		Close

What Standards are Needed?

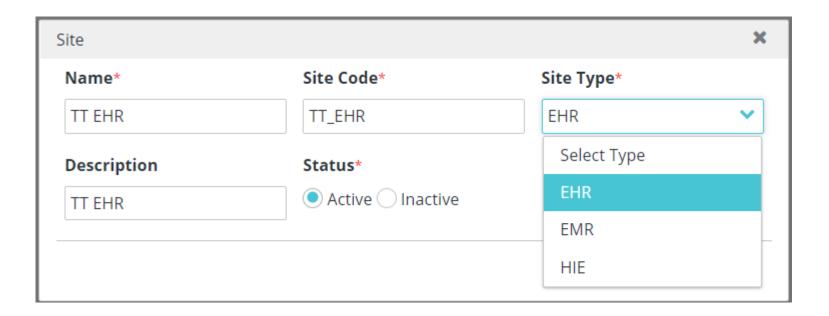

- NCPDP Script v10.6
- NIEM
- PMIX
- FHIR 3.0

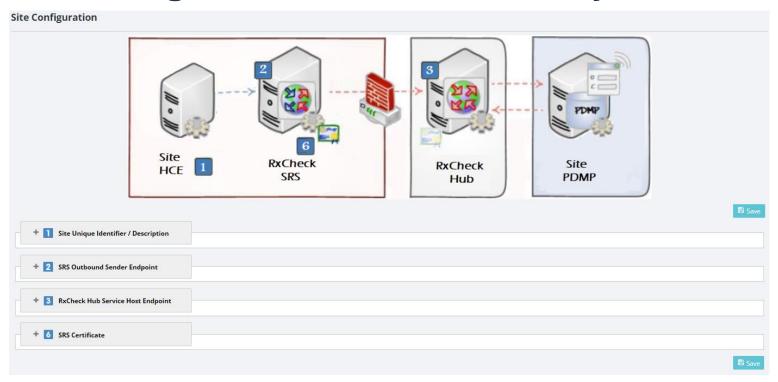

Creating Health Entity - RxConsole

SRS Configuration for Health Entity - RxConsole

RxCheck Security

- Hosted on Azure Government Cloud and the infrastructure is CJIS, HIPPA and FedRamp certified.
- All RxCheck servers are Linux servers and Azure infrastructure is configured to detect any intrusions.
- OWASP coding standards are performed on RxCheck Hub source code
- RxCheck is compliant with NIST 800-53.
- All connections undergo conformance testing and certification
- Azure Govt Cloud infrastructure is disaster proof for business continuity by scaling the application in multiple regions in the country
- Third party penetration testing and SOC2 Type 2 audit are currently being implemented

How does and entity begin the process?

- 1. The healthcare entity signs a state PDMP MOU
- 2. PDMP Administrator advises IJIS that they want the entity to integrate
- 3. IJIS sets up an integration call to walk through the integration process with the entity's technical team and/or their vendor
- 4. Connection process begins

What are the costs?

- No fees are charged by RxCheck
 - No connection fees
 - No user fees
 - No license or recurring fees

Vendors we have integrated with

- EPIC
- LogiCoy
- Allscripts (Touchworks)

Vendors we are integrating with now

- PastRx
- Deloitte
- Revere
- Athena Health
- eClinicalWorks v.11
- Cerner

Integration via RxCheck Hub

Kentucky All Schedule Prescription Electronic Reporting (KASPER)

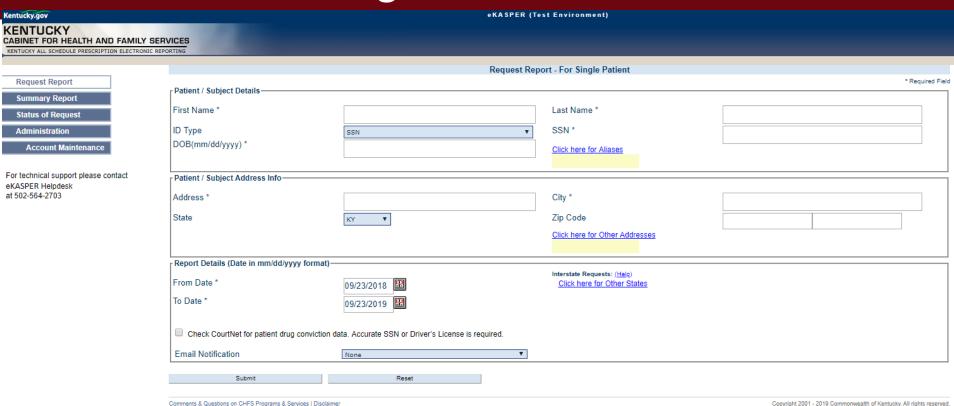

Purpose of Integration

Provide simplified access to KASPER report data in practitioner and pharmacist workflow while maintaining the requirements of Kentucky statute and regulations.

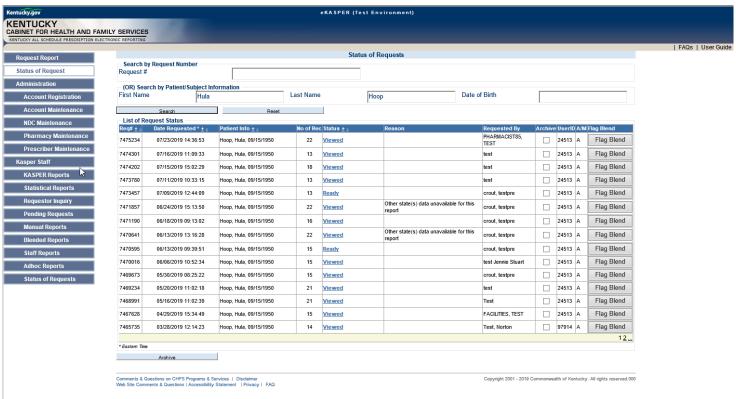

Pre-integration KASPER use

Web Site Comments & Questions | Accessibility Statement | Privacy | FAQ

Pre-integration KASPER use

Pre-integration KASPER use

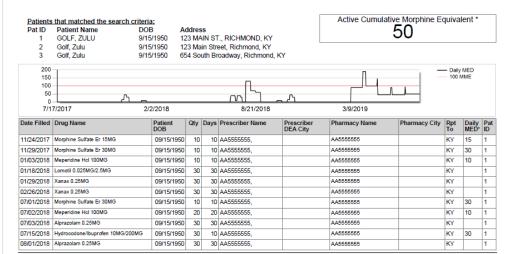

CABINET FOR HEALTH AND FAMILY SERVICES
Commonwealth of Kentucky
275 East Main Street
Frankfort, KY 40621-0001
Drug Enforcement Branch - KASPER

Patient Controlled Substance Report Between 07/17/2017 and 07/17/2019

Patient Name: GOLF, ZULU

Requestor Name: Hall, Jean Request #: 7475244

[&]quot;The Information in this report is based upon Schedule II through V controlled substance records reported by dispensers. Data should appear on KASPER reports within two to three business days after dispensing.
"The records listed in the report are based on the patient identification information entered by the report requestor, and if not sufficiently unique may result in the report including records for multiple patients. Please verify the information

Report Restrictions – A practitioner or pharmacist may share the report with the patient or person authorized to act on the patient's behalf and place the report in the patient's medical record, with the report then being deemed a medical record subject to the same disclosure terms and conditions as an ordinary medical record K.RS 218.4.202)

Page 1 of 3

[&]quot;If the controlled substance records on this report appear to be in error, the patient or provider should contact the dispenser to determine if the information was reported accurately. If the dispenser certifies the information was reported accurately. If the dispenser can contact the Drug Enforcement and Protessional Plactices Bisnon as 502-564-7985 to Investigate the error.

The information in this report is informed or informational use only by the personal authorized for reportant disclosure of the report or data to someone not authorized to obtain the data is a Class B Misdemeanor.

Integration Overview

- ✓ Agreements for Integrated Use
 - Institutional Account Agreement for Integration for hospital base services
 - Data Use Agreement for other practices
- ✓ Utilize intermediaries
 - ✓ Kentucky Health Information Exchange
 - ✓ RxCheck Hub
 - ✓ PMPGateway/PMP Interconnect Hub
- ✓ Options for presentation in your Electronic Health Record (EHR)
 - ✓ Report built in EHR
 - ✓ Enhanced view provided by approved integration partners
- Summary data cannot be provided in lieu of viewing the Rx records

Kentucky Health Information Exchange (KHIE)

- Utilizes the RxCheck Hub as an intermediary
- IHE Integration
 - Query passed to KASPER includes patient demographics*
 - Returns KASPER data in Consolidated Continuity of Care document
 - Query in Institutional Account Master Account Holder name
- Portal
 - Query passed to KASPER includes patient demographics*
 - Returns KASPER data in Prescription Drug Monitoring Program (PDMP) tab
 - Query based on users KHIE and KASPER credentials in the Kentucky Online Gateway

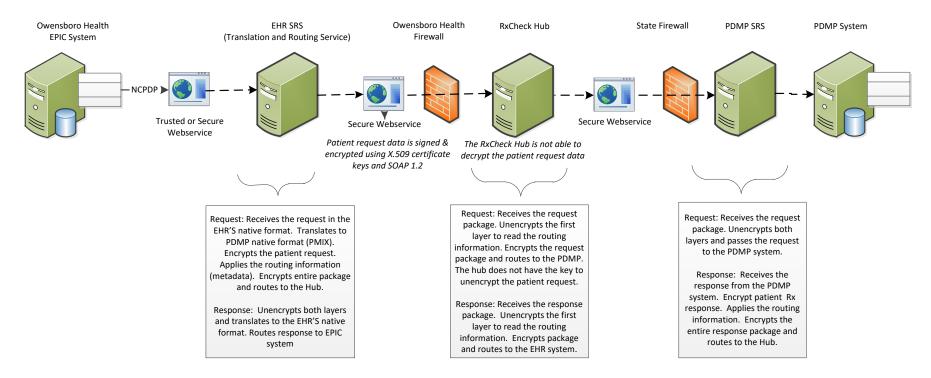

^{*}Query not passed to KASPER if patient not present in KHIE

Sample RxCheck Integrations

- National Council for Prescription Drug Programs (NCPDP)
 Integration with Owensboro Health
- Logicoy integration with Graves Gilbert Clinic
- PastRx integration with Jennie Stuart Medical Center

Kentucky Integration

Owensboro Health Integration

- Data consumed by the EHR system
- Does not re-query for 24 hours
- Viewable for all prescribers caring for the patient
- Auto-queries for scheduled appointments
- Query upon registration for Emergency Department, Inpatient, Surgical Services, etc.

Owensboro Health Integration

- List basic prescription information in a custom report
- User can hover over the drug name for additional information
- Contains same disclaimers as the KASPER system report
- Requires prescriber to acknowledge review of the report
- Can run internal reports on reviewing compliance

Graves Gilbert Clinic Integration

- Utilizes Logicoy representation of data
- Includes dynamic representation that allow the user to view various aspects of the data
- Risk Analysis
- Alerts
 - Overlapping Rx
 - Morphine Milligram Equivalents
- Automatic import into the EHR

Jennie Stuart Integration

- Utilizes PastRx representation of data
- Risk Analysis
- Alerts
 - Outside Providers
 - Overlapping Rx
 - Morphine Milligram Equivalents
- Mapping of Prescriber and Dispenser

Standardized Templates for Integration

- Test Patients
- Testing Scenarios standard process for testing integration and demonstrating use to healthcare team members
- End User Training Guides for prescriber and pharmacist use of PDMP reports in their integrate workflow
- Support Guide for Integration –for healthcare system technical staff
