

# Controlled Substance Agency Resource Directory

November 2017

This document is funded through a grant (No. 2014-PM-BX-K001) from the Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice. Points of view or opinions in this document are those of the author and do not represent the official position or policies of the U.S. Department of Justice.

Governmental agencies across the country are actively engaged in efforts to curtail prescription drug abuse and diversion. These agencies understand the importance of collaborating with one another and that joint agency efforts have a greater and lasting impact on the prescription drug problem. The PDMP Training and Technical Assistance Center (TTAC) has compiled this directory to help facilitate collaboration and to provide information on each agency's authority and responsibilities.

This directory contains contact information on the governmental agencies that regulate and oversee the manufacturing, distribution, prescribing, dispensing, and possession of controlled substances. Additionally, federal law enforcement agencies responsible for investigating and prosecuting criminal enterprises are included along with agencies that regulate drug treatment programs. The listings were obtained from public websites and compiled for each State. Included are listings for prescription drug monitoring programs, health licensing boards (dental, medical, nursing, pharmacy, podiatry, veterinary), state substance abuse agencies, controlled substance scheduling authorities, Drug Enforcement Administration (DEA) Diversion Offices, and DEA Tactical Diversion Squads.

The contact information contained in this directory is provided for information purposes only. While the TTAC strives to provide accurate information, there are no guarantees for the currency or accuracy of the information. If you discover an inaccuracy, please send an email to [info@pdmpassist.org](mailto:info@pdmpassist.org) so that it may be corrected.

Below are brief descriptions of each agency's purpose and responsibility:

#### **Prescription Drug Monitoring Program**

Prescription Drug Monitoring Programs (PDMPs) are highly effective tools utilized by government officials for reducing prescription drug abuse and diversion. PDMPs collect, monitor, and analyze electronically transmitted prescribing and dispensing data submitted by pharmacies and dispensing practitioners. The data are used to support states' efforts in education, research, enforcement and abuse prevention.

#### **Professional Licensing Boards**

Each health care professional, who is authorized to possess, administer, prescribe, or dispense a controlled substance, is licensed by the state in which the health care professional practices. Health care professionals may be licensed in more than one state. The Boards are responsible to ensure that each individual making application for licensure is qualified and meets the standards established in law for licensure. The purpose of health professional boards is to protect the public health and safety by establishing standards of practice and to investigate complaints of misconduct, competency, and patient safety. Boards have the authority to take legal action against anyone licensed by the board, including suspension or revocation of a license.

#### **Dental Board**

Oversight of dentists, dental hygienists, and dental assistants.

#### **Medical Board**

Oversight of medical doctors (MD), doctors of osteopathic medicine (DO), and physician assistants (PA).

#### **Nursing Board**

Oversight of registered nurses (RN), licensed practical nurses (LPN, LVN), and nurse practitioners (RPN, APN).

#### **Pharmacy Board**

Oversight of pharmacies, pharmacists, and pharmacy technicians.

#### **Podiatry Board**

Oversight of podiatrists (DPM).

#### **Veterinary Board**

Oversight of veterinarians (DVM) and veterinary technicians.

#### **State Substance Abuse Agency**

State Substance Abuse Agencies regulate agencies that provide substance abuse treatment, coordinate prevention efforts, and provide resources for individuals seeking treatment.

**Controlled Substance Scheduling Authority**

Controlled Substance Scheduling Authorities are responsible for setting the schedule for a controlled substance in a State. State scheduling actions typically follow and align with Federal scheduling actions, but a State can enact stricter standards. Placing a controlled substance within a schedule requires legislative or regulatory action.

**Drug Enforcement Administration Office of Diversion Control**

Responsible for the licensing of controlled substance manufacturers, distributors, prescribers, dispensers, importers and exporters. The office is also responsible for the prevention, detection, and investigation of controlled pharmaceutical and listed chemical diversion from legitimate sources while ensuring an adequate and uninterrupted supply for legitimate medical, commercial, and scientific needs.

**Tactical Diversion Squad**

The Tactical Diversion Squads combine DEA resources with those of federal, state and local law enforcement agencies in an innovative effort to investigate, disrupt and dismantle those suspected of violating the Controlled Substances Act or other appropriate federal, state or local statutes pertaining to the diversion of licit pharmaceutical controlled substances or listed chemicals.

## Alabama

<b>Prescription Drug Monitoring Program</b>	<b>Agency:</b> Alabama Department of Public Health <b>Address:</b> 201 Monroe Street, Ste 1010, Montgomery AL 36130-3017 <b>Telephone:</b> (334) 206-3014 <b>Website:</b> <a href="http://www.adph.org/PDMP">http://www.adph.org/PDMP</a>
