- 2006 -2010 Schedules II-V's, required to report within 30 days.
- April 2010 Schedules II-V must report within 24 hours of dispensing, everything must be submitted electronically.
- January 2012 pharmacies are required to report in Real Time (within 5 mins.).
- November 1, 2015 – Prescriber requirement to check the PMP prior to writing prescriptions for an opiate, benzodiazepine and/or carisoprodol.

PMP Requirements
