Organization Management allows physicians to
verify and monitor

controlled substance prescriptions issued by their
Mid-Level delegates with prescriptive authority
which they supervise.

PMP Monitoring and Compliance

Pharmacist Lookup Mandate Audits

Pharmacy Delinquent Reporting

Out Of State CII Prescription Violations

PMP Data Inaccuracies

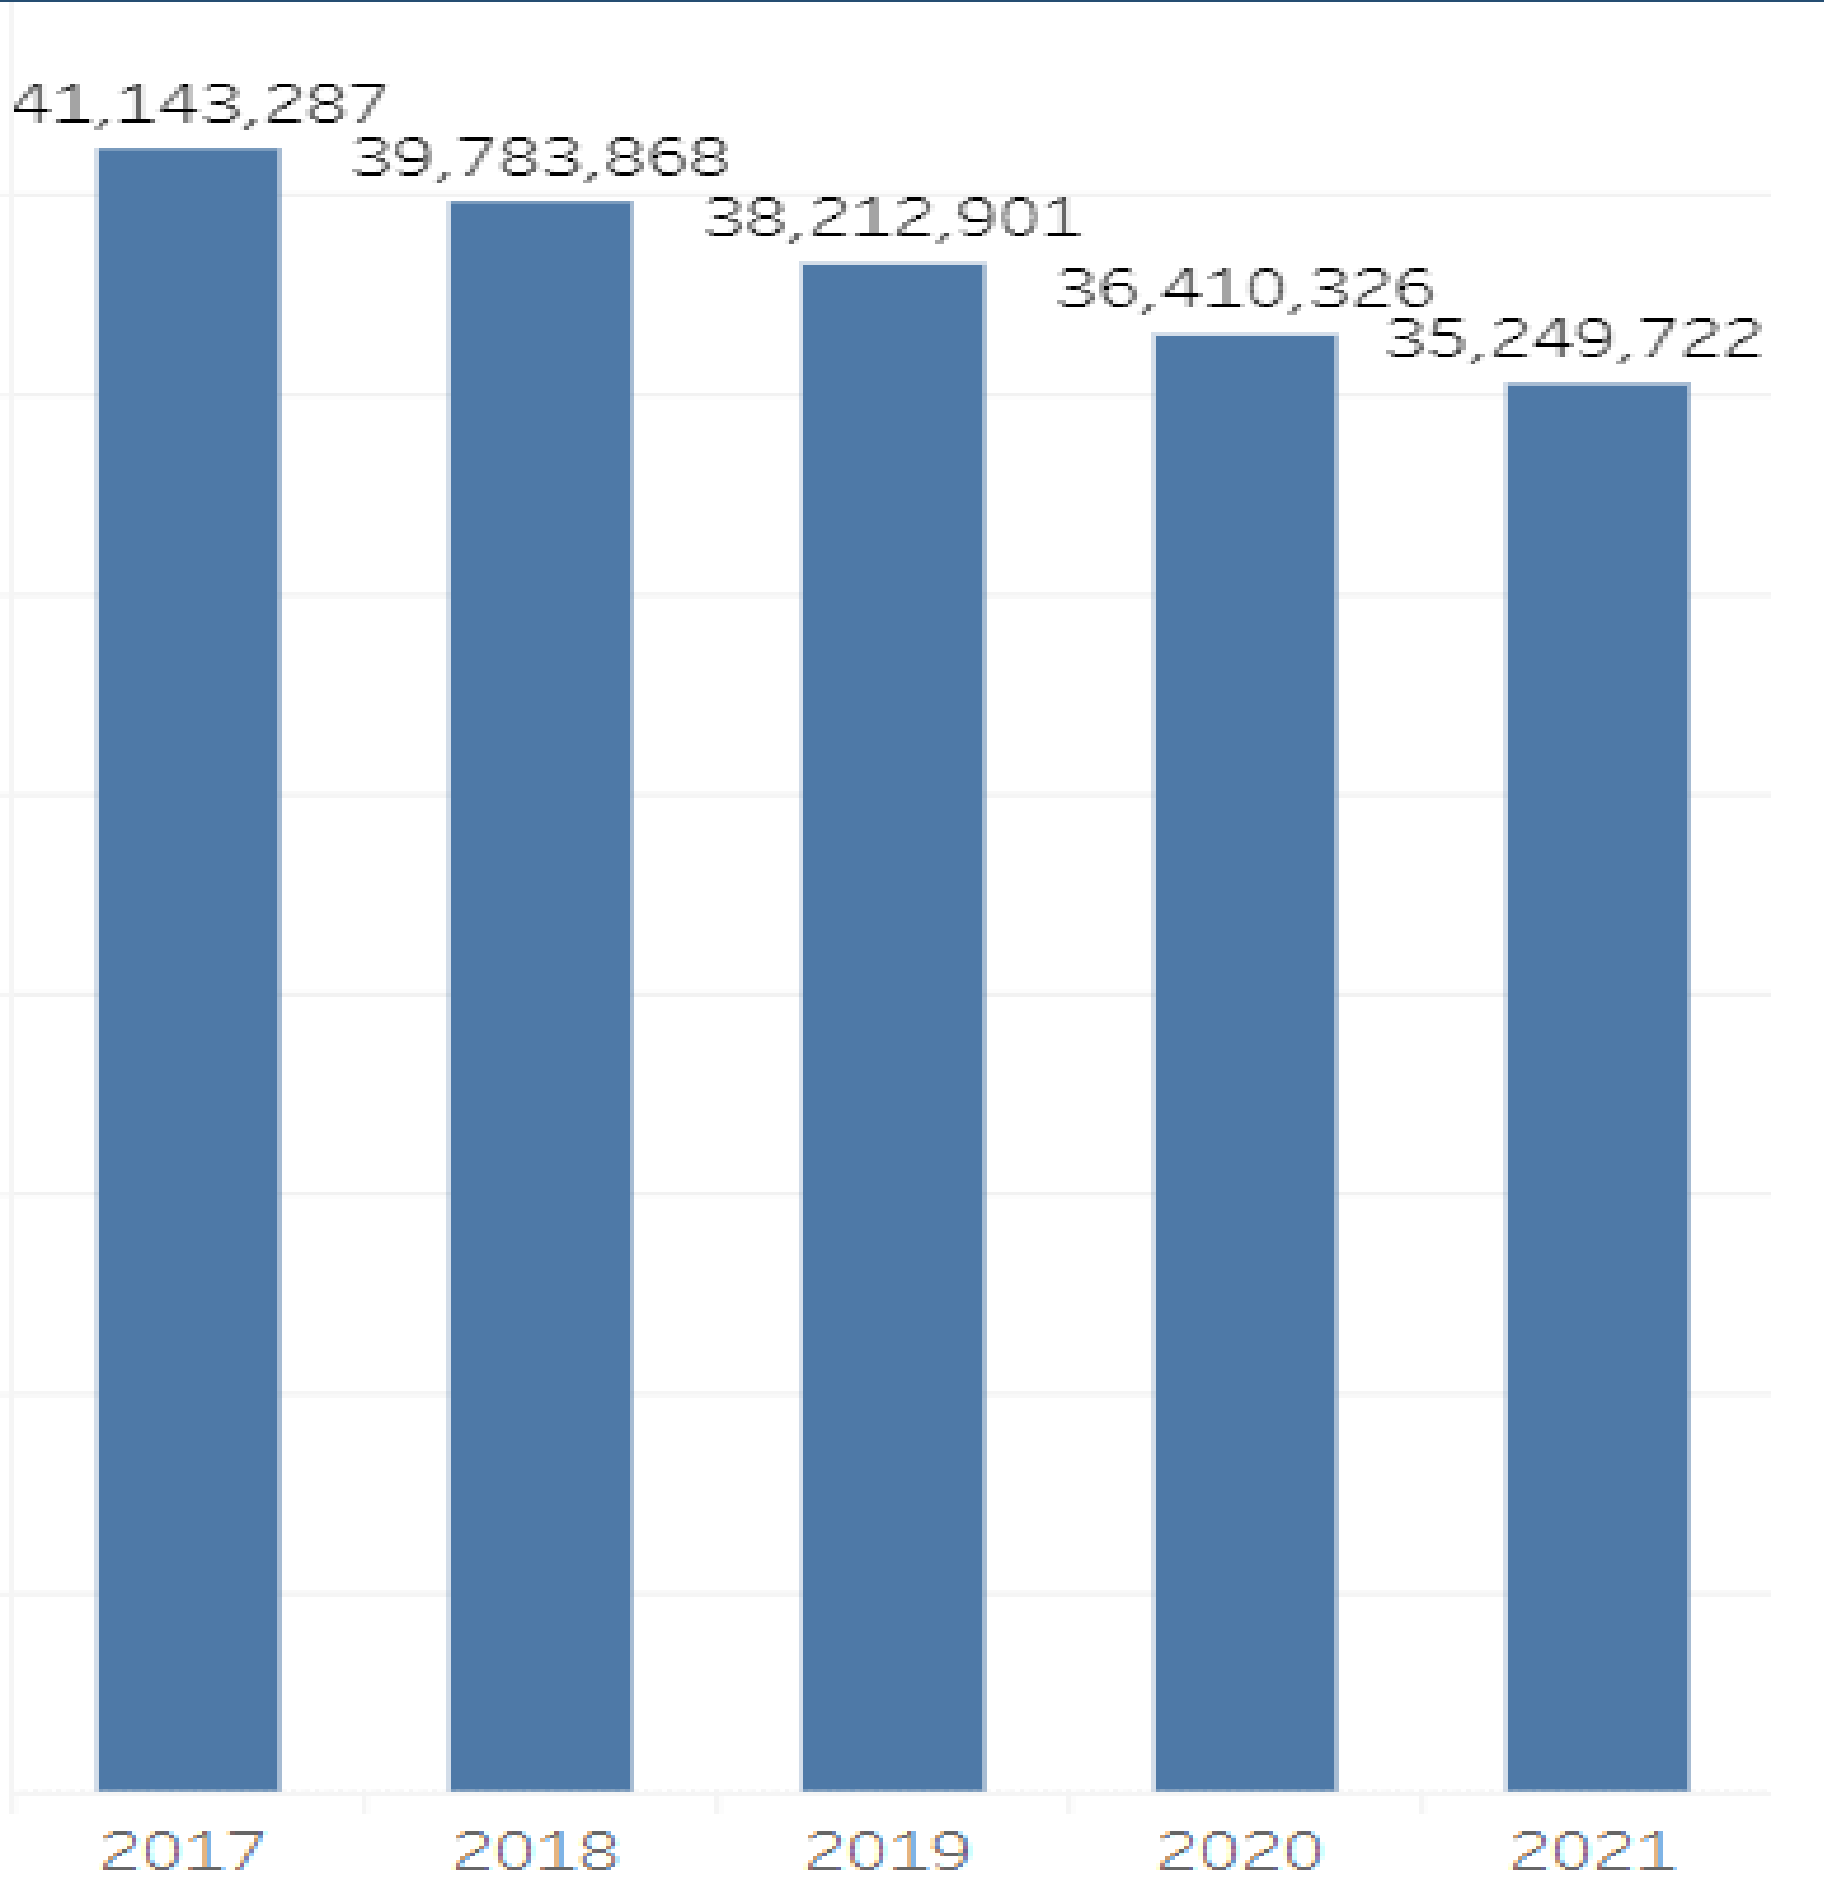

Verifying of AWAxRxE User Accounts

TX PMP Dispensation Count By Fiscal Year

PMP Data Accuracy Improvement

- Delinquent Pharmacies
- Unauthorized Pharmacies Dispensing Out of State CII Prescriptions
- Pharmacies using wrong DEA (institutional)

*Data as of 7/15/2022

Texas PMP Data Review

- Patient Name, DOB, Address
 - Rx Number
 - The date issued must be prior to date filled
 - NDC Code
 - Quantity
 - Practitioner's DEA registration number
 - Prescriber DEA Suffix column should include numbers/letters for entries that have the word "hospital" or "university" in the Prescriber Last Name Column
 - Pharmacy analysis shows pharmacy is reporting controlled substance (c/s) dispensations to the PMP as required.
If not checked:
 - Pharmacy dispenses schedule II drugs? If Yes:
 - For Paper/ Phone_fax – All control numbers listed.
*Look for prescriptions issued prior to 09/01/2018 (Control Number starts with 18243 or less), if any listed, the pharmacy is filling old prescriptions out of compliance).
 - For Electronic – All Electronic Reference Numbers
 - Paper and electronic: Prescriber's state is TX unless pharmacy has OOS CII plan or licensed Non-Resident (Not Located in Texas).
- Pharmacy has no AWA Rx Maintenance errors over 7 days old
- TWDD (Texas Wholesaler Distributor database) confirms that there are records for the pharmacy (Arcos Records, select Associate_Registrant_Number, enter DEA number).

PMP Data Reporting Violations

- Pharmacy Outreach
 - Pharmacist in Charge education and compliance
 - Resolving Delinquencies
 - Auto email notification
 - Zero Reporting
 - Reporting Waiver
 - Out of State CII Plan

Enforcement

Texas Administrative Code Rule §315.6 Pharmacy Responsibility - Electronic Reporting

*A pharmacy must electronically correct dispensing data submitted to the board within seven business days of identifying an omission, error, or inaccuracy in previously submitted dispensing data.

Control Substances.

In one year, over 1,000 Texans died from prescription drug overdose. Prescribers or their delegates will soon be required to use the **Texas Prescription Monitoring Program** to review every patient's prescription history before prescribing opioids, benzodiazepines, barbiturates, or carisoprodol.

Help end this crisis.

Sign on before you sign off.

PMP provides educational presentations about the PMP and its use.

The Texas Health and Human Services Commission and the Texas State Board of Pharmacy have partnered with the UT Austin Center for Health Communication to promote prescribers' use of the Texas Prescription Monitoring Program (PMP), with the ultimate goal of preventing prescription drug misuse and overdose.
