## Concerning Patient History Alerts

Generated during the past 100 days

- 1 Patients with Concurrent Benzodiazepine and Opioid Prescriptions
- 5 Patients with Multiple Prescribers or Pharmacies
- 4 Patients with Early Refill
- 0 Patients with High Current Daily Dose of Opioids
- 1 Patients with Long-Term Opioid Therapy with Multiple Prescribers
- 1 Patients with Multiple Same-Day Prescription or Dispensing Events

## Law Enforcement Alerts

Reported during the past 100 days

- 0 Patients with Suspected Non-Fatal Opioid-Related Drug Overdose
- 1 Patients with Suspected Fatal Narcotic Overdose
- 0 Patients with Report of a Stolen Controlled Substance Prescription
- 0 Patients with Suspected Violation of the Controlled Substances Act involving Rx Drugs

## Summary of ePDMP Usage

Based on usage since 9/17/2017

- 60 Queries by User
- 90 Queries completed by Delegates
- 191 Prescription Orders Written (excluding orders for 3-day supply or less)
- 85% Estimated ePDMP Usage Compliance Rate

### USE NON-OPIOID TREATMENT

Opioids are not first-line or routine therapy for chronic pain

In a systematic review, opioids did not differ from non-opioid medication in pain reduction, and non-opioid medications were better tolerated, with greater improvements in physical function.

### REVIEW PDMP

Check PDMP for high dosages and prescriptions from other providers

A study showed patients with one or more risk factors (4 or more prescribers, 4 or more pharmacies, or dosage >100 MME/day) accounted for 55% of all overdose deaths.

### OFFER TREATMENT FOR OPIOID USE

Offer or arrange evidence-based treatment for patients with opioid user disorder

(e.g. Medication-assisted treatment and behavioral therapies)

### START LOW AND GO SLOW

When opioids are started, prescribe them at the lowest effective dose

### AVOID CONCURRENT PRESCRIBING

Avoid prescribing opioids and benzodiazepines concurrently whenever possible

# MEDICAL COORDINATOR ROLE

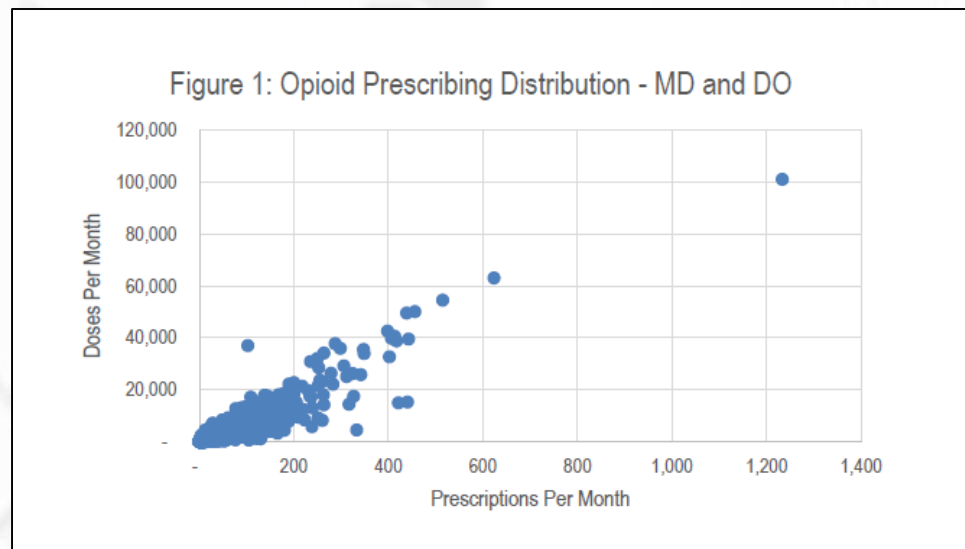

- Created pursuant to 2015 Wisconsin Act 266
- Requires the WI ePDMP to disclose information, not including patient-identifiable information, to a person who does any of the following:
  - Medically coordinates, directs, or supervises a practitioner to whom PDMP records may be disclosed
  - Establishes standard operating procedures for a practitioner to whom PDMP records may be disclosed
  - Evaluates the job performance of a practitioner
  - Performs quality assessment and improvement activities, including outcomes evaluation or developing clinical guidelines

# BOARD REFERRALS

- [CSB 4.12](#) allows use of PDMP data to determine whether circumstances indicate suspicious or critically dangerous conduct or practices of a pharmacist, pharmacy, practitioner, or patient
- August 2018 first report made to Medical Examining Board
