Conference Call Agenda/Minutes

➤ Roll Call

Quorum achieved

➤ Approval of Minutes from 4-22-2020

Chad Garner (OH) makes motion to approve

Rod Kelly (MA) seconds motion

No discussion

Approval Minutes pass unanimously

➤ Alternate Metadata Schema Update

Jean Hall (KY) gave the update. Sent out 2 schemas that tech and operation subcommittees have worked on and updated (request and response schema).

The request schema terminology and names has been updated (field names) to be consistent with NIEM 4.0. The documentation will make first name, last name and date of birth mandatory (chad agrees). No content changes were made.

The prescription report exchange example response schema has the same changes (NIEM 4.0) and the addition of patient alert fields and the addition of all the fields that are available in the ASAP standard.

Ron Larsen (UT) asked if the updates meet the ASAP 4.2B items. Jean Hall (KY) will review and confirm

Jean Hall (KY) discussed the patient alert and the alert category code. The committees has come up with 12 different category codes. They will be sent out shortly.

Jean Hall (KY) proposed that that Patrick Knue (TTAC) set up another meeting in two weeks to discuss the schema changes. Pat will send out a doodle pole.

Kevin Borchert (NE) noticed that some fields, like (DSP 20 and DSP 21 as well as Rx Sig) were not in the schema, is there a reason for this?

Jean Hall (KY) said it would not be used in interstate data sharing. Chad Garner (OH) confirmed with the rationale is that it can not be used in. Jean Hall (KY) said the notes for the meeting will be reviewed.

Chad Garner (OH) asked why a separate meeting was going to be set up to discuss. Jean felt a separate meeting would be helpful. Chad Garner (OH) feels that there are too many

meetings. Kevin Borchert (NE) brought up that these changes must be implemented by the RxCheck hub by August. Jean Hall (KY) feels that we could make it the main topic of July's executive committee meeting. Kevin Borchert (NE) asked for the process and whether a request for comments period would be needed. Jean Hall (KY) confirmed. Chad Garner (OH) asked if the necessary approval for the technical committee has been established. Jean Hall (KY) said it is currently being referred and approved by the committee.

➤ Subcommittee Updates

- Operations Subcommittee – Kevin Borchert (NE)
 - Patient Matching Workgroup

Kevin Borchert (NE) gave the update. The group met on June 15. Discussed the patient matching work group and working with Chris Delcher (University of KY) and creating metrics. Released the new PMIX logo. Talked about the website change and future changes.

- Technical Architecture Subcommittee – Ron Larsen (UT)

Ron Larson (UT) provided the update. Met on June 18. Discussed the schema workgroups. Patrick Knue (TTAC) created a MS teams' folder to share the two documents that Jean Hall (KY) provided that goes over the information and approve to send back to the executive committee. They also need to decide the new goals for the coming years (2020 – 2021).

- Standards Compliance Subcommittee – Chad Garner (OH)

Chad Garner (OH) gave the update. The group put together a presentation for this committee that goes into progress and compliance overall using specific standards. Presentation will provide recommendations. Executive committee should review the document. Patrick Knue (TTAC) will send out the document and comments should be sent to Chad Garner (OH).

Jean Hall (KY) suggested that the next couple of executive committee meetings to be do in webinar format.

Patrick Knue (TTAC) will resend the PMIX goals.

➤ Other Business

- PMIX goals

Jean Hall (KY) stated that one of the top goals was to identify base functionality for data sharing hubs. The idea would be for the committee to identify which committees need to work on this goal.

Patrick Knue (TTAC) will send out a survey so that member can identify which groups should work on which goal. Jean will work with pat to set up the survey. The results of the survey will be discussed at the next meeting.

- **PMIX website**

Patrick Knue (TTAC) gave the update. A lot of progress on the formatting and language. The developer has put some in place and they are being reviewed by the committee. IT is anticipated that the updates could go live early July. Next call is July 14th. The committee drafted up items which are currently with Jean for review.

Patrick Knue (TTAC) brought up the PMIX executive committee (max date is end of September). We need to decide if we need to do in person or virtual. The group came to consensus that travel is still restricted so that virtual meeting is required. TTAC will set up a virtual meeting.

Jean Hall (KY) stated her appreciation the work of the other committees have done and that their work has made the executive committee meetings move more smoothly.

Meeting Adjourned.

➤ Next Meeting: Wednesday, July 22nd at 12p ET

➤ Action Items
