Conference Call Agenda/Minutes

➤ Roll Call (need 7)

Quorum not established.

➤ Approval of Minutes from 12-16-2019

Tabled until next call.

➤ Subcommittee Goals for 2020

Tabled until next call.

➤ Update from Patient Matching Working Group

Tabled until next call.

➤ Data Elements for PMIX Schema

Jean Hall (KY) asked members for use case examples for patient alerts.

1. Suspected non-fatal overdose
2. Potential doctor shopping (5/5 alert)
3. Benzo and opiate combination
4. MMEs within certain range
5. Participants in medical marijuana registry (display leaf on patient)
6. # of acute pain prescriptions issued to patient
7. Naloxone dispensing
8. TTAC mentioned that they have information on elements on generating unsolicited reports and mandatory query conditions which could populate this list.

Jean Hall (KY) stated that these sound like it is just an indicator and text string which could easily be passed within PMIX exchange standard. Tom Carlson (Carlson Consulting) still need to develop a list of all the potential alerts for the schema to support.

➤ Other Business

Not covered due to time.

➤ Next Meeting – Tuesday, February 17th at 1p ET

Need to select another date (President's Day). TTAC will work with members to reschedule.

➤ Action Items

TTAC will pull the data elements used for unsolicited reports and mandatory queries and provide to the Schema Workgroup #2 for their next call.
