Conference Call Agenda/Minutes

➤ Roll Call (9 for quorum)

Quorum established

➤ Approval of Minutes from 5-11-2021

Motion to approve the minutes was made by Jean Hall (KY); seconded by Vlad Schorstein (GA). Unanimously approved.

➤ Second Functionality Survey Results

Kevin Borchert (NE) reviewed the results from the second survey to the subcommittee members.

Jean Hall (KY) made motion to submit the following to the PMIX Executive Committee to be explored as a PMIX standard; seconded by Vlad Schorstein (GA). Unanimously approved.

- Expand current schema to improve audit trails to track request to requestor and/or master account level (if delegate made request)

Haley Alder (MO) made motion to bring in technical and business people to discuss the following in more detail prior to considering it for submission to the PMIX Executive Committee as a PMIX standard; seconded by Shirley Madewell (NY). Unanimously approved.

- Interoperability between hubs

Jean Hall (KY) stated that there is a security standard (subset of NIST Standard) as part of the PMIX Standard. She suggested that a security expert be brought in to present the security standards to the PMIX Operations at a future meeting. Jean Hall (KY) will identify the appropriate expert and schedule the presentation.

- Robust data security of information

Jean Hall (KY) suggested that a presentation be made showing the current data elements that are available (i.e., metadata, alternate metadata) for potential searches. She will create a presentation and present at a future meeting.

- Improve search capabilities of audit trail information

➤ Subcommittee Goal #1: Identify Functionality for data sharing hubs – Survey Results and Finalize (bolded items for discussion from previous meeting)

- *Expand current schema to improve audit trails to track request to requestor and/or master account level (if delegate made request) (GA and CA)*
- *Data clean-up to increase match rates (ONC)*
- ***Provider repository (NE and ME)***

- *Transparent and seamless interaction between existing hubs without requiring the user to select a hub (FL)*
- *Interoperability between hubs*
- *Improve search capabilities of audit trail information (KY)*
- *Robust data security of information (GA)*
- *Data translation between various versions of standards to move data across systems (ONC)*
- *Dynamic dashboard detailing agreements (e.g., state worksheets) between state PDMPs (GA)*
- ***Allow data provenance (e.g., meta-data) to know when last updates were made (e.g., name changes) to help reconcile information across systems (ONC)***
- ***Allow for additional data to be used within current security and confidentiality parameters (second call for information) (ONC)***
- ***Central patient repository used to only check appropriate sources that might have additional information for matching (NIC)***
