## Conference Call Agenda/Minutes

### ➤ Roll Call

Quorum established.

### ➤ Approval of Meeting's Minutes from 2-17-2021

Motion to approve the minutes was made by Rodd Kelly (MA); seconded by Depris Price (NC). Unanimously approved with Chuck Bedel (DrFirst) abstaining.

### ➤ Best practices in EHR integration/interstate data sharing queries

- Scenario for credential exchange (Jean Hall, Clay Rogers)

Subcommittee approved the wording that was provided.

- Document introduction on user roles/permissions (Rodd Kelly, Nilu Kundagrami)

TTAC provided document to subcommittee members that had been edited as listed above. Group discussion – remove veterinarian from PDMP user role table since they are not engaged with electronic health record (EHR) integration (suggestion from Ron Larsen); include language indicating that access is dependent upon agreement between data sharing states for select user roles (i.e., physician assistants, psychologists) (suggestion from Ron Larsen); include complete list of user roles available for integration from the PMIX standards (i.e., interns, delegates) (suggestion from Clay Rogers); add third column to table for 'access level/EHR use case' and include all the available user roles or put in comment that user role and access is subject to applicable state laws (suggestion from Rodd Kelly); change medication history to controlled substance prescription history throughout document;

Clay Rogers (Appriss), Rodd Kelly (MA), and Nilu Kundagrami (Scriptulate) will revisit the user role permissions and update based on the above discussions. Draft will be made available prior to April's call.
