- GOAL: Hub to Hub Interoperability – Review interoperability diagram

Jean Hall (KY) developed a Powerpoint presentation with a diagram showing interoperability and item descriptions. Subcommittee members made suggestions/edits as proceeded through diagram and descriptions. Subcommittee decided that this information should be developed into both a technical document and user-level document.

- GOAL: Multi-state health system rules sets in different states; explain challenges/opportunities.
 - Draft survey

Jean Hall (KY) mentioned that a survey would be sent with open-ended questions on challenges and opportunities. The survey would cover both interoperability in general and state health systems specifically. TTAC will work with Jean Hall (KY) to develop survey.
