- Required use - Prescriber Required use - Dispenser Compliance Process for Use Mandates

C.R.S. 12-42.4-404(3.6) (a) Each practitioner or his or her designee shall query the program prior to prescribing the second fill for an opioid unless the patient receiving the prescription:

(I) Is receiving the opioid in a hospital, skilled nursing facility, residential facility, or correctional facility;

(II) Has been diagnosed with cancer and is experiencing cancer-related pain;

(III) Is undergoing palliative care or hospice care;

(IV) Is experiencing post-surgical pain that, because of the nature of the procedure, is expected to last more than fourteen days;

(V) Is receiving treatment during a natural disaster or during an incident where mass casualties have taken place; or

(VI) Has received only a single dose to relieve pain for a single test or procedure.

(b) The program must use industry standards to allow providers or their designees direct access to data from within an electronic health record to the extent that the query relates to a current patient of the practitioner.

(c) A practitioner or his or her designee complies with this subsection (3.6) if he or she attempts to access the program prior to prescribing the second fill for an opioid, and the program is not available or is inaccessible due to technical failure.

(d) A violation of this subsection (3.6) does not create a private right of action or serve as the basis of a cause of action. A violation of this section does not constitute negligence per se or contributory negligence per se and does not alone establish a standard of care. Compliance with this section does not alone establish an absolute defense to any alleged breach of the standard of care.

Veterinarian Policies

- Veterinarian access to owner's prescription history Veterinary Icon on PDMP Report

Criteria for veterinarian queries: Animal's Name, Animal Owner's Name

Reporting method:

Reporting description:

Data Fields:

- Animal reporting specifications same as human patient

Animal v. Human Patient Reporting Differences:

Reporting Issues: Veterinarian does not have animal owner's information, Veterinarians sometimes do not have client's DOB and feel uncomfortable asking for it to perform a search. We explain that a "partial name" search can remove the DOB requirement.

Reporting Miscellaneous Information:

- Reporting Mandate Compliance

Compliance Details:

Reporting Mandate Actions:

Enrollment Description: Veterinarians are required to enroll as data requesters with the PDMP

Enrollment Mandate Criteria: Must have a personal DEA license

Patient Matching

- Exact match
 - Probabilistic match
 - Referential match
 - Deterministic match
 - Access to patient matching algorithms
- Matching data elements:
Matching metrics available:
Internal matching barriers: Limited data elements used in matching process, Lack of insight into matching methodology in use, Only require name, DOB, and address in prescription (no DL, SSN, etc) - address differences can sometimes prevent patient match (anecdotal evidence).
- Interstate matching barriers: Little feedback from end users, Appriss reports a match rate of over 99%, though we receive audit reports that indicate when a patient report did not load due to multiple patients.
- Manual match

Other match method
