PDMP Accounts

- Automatic enrollment with license renewal or application

Enrollment method: Practitioners must proactively enroll themselves by filling out an application. Once it is determined by INSPECT staff that the practitioner has the proper credential and is in good standing, they are approved.

Prescriber account criteria: A provider should have their DEA Number and license number. INSPECT does not accept a DEA number that belongs to a hospital with a suffix – practitioners falling in that category would be “delegates” and would need an account under a supervising practitioner.

Dispenser account criteria: Valid Pharmacist License from any state

Regulatory Board account criteria: no unique account; PDMP pulls data for them;

Law Enforcement account criteria: Affidavit signed by supervisor stating account is necessary to perform investigative functions

Law Enforcement Requirements

- Active investigation Probable cause
 Subpoena Search warrant
 Court order/approval Proper need/upon request

Other:

Law Enforcement Access Methods

- On-line/web portal
 Written request
Other method:
-

Criteria to Query PDMP

Minimum data elements: Last name, First name, Date of Birth, Date range of dispensation (365 days per search, but can go back to 1994)

Partial data elements: allow partial name, but strongly urged not to

Optional data elements: Alias, address, gender

Patient access to query list details:

Requirements for patients to get own report: A practitioner must determine whether or not they want to include the PDMP report in the patients medical record. If the report is put into the medical record, the patient will have access.
