PDMP Accounts

- Automatic enrollment with license renewal or application

Enrollment method: Online application process, followed by an email verification and notary agreement form.

Prescriber account criteria: To register: Provider Information: Name, DOB, Licensing Agency, License # and State of Licensure, DEA #, and Title; Facility Information: Name, Address, Phone #, Fax #, and Email Address

Dispenser account criteria:

Regulatory Board account criteria:

Law Enforcement account criteria:

Law Enforcement Requirements

- Active investigation Probable cause
 Subpoena Search warrant
 Court order/approval Proper need/upon request

Other: must provide a case number

Law Enforcement Access Methods

- On-line/web portal
 Written request

Other method:

Written request for out-of-state law enforcement only

Criteria to Query PDMP

Minimum data elements: first name, last name, date of birth, prescription fill dates from & to

Partial data elements: Partial first name and partial last name search. Must have date of birth.

Optional data elements: Phone number, social security number, drivers license number, city, state/province, zip code

Patient access to query list details: If they believe there was someone who accessed their account They may file a complaint with the Board of Pharmacy and start an investigation

Requirements for patients to get own report: notarized authorization form

Required PDMP Enrollment and Use

- Required enrollment - Prescriber Required enrollment - Dispenser Compliance Process for Enrollment Mandates
Practitioners with a DEA registration number
Enrollment Effective Date(s): January 1, 2018
- Required use - Prescriber Required use - Dispenser Compliance Process for Use Mandates
- Each board has setup up their own requirements for accessing the ND PDMP under certain circumstances. Requires opioid treatment programs to use the PMP at least monthly for each patient. Prior to dispensing a prescription, each dispenser licensed by a regulatory agency in the state of North Dakota who dispenses a controlled substance to a patient, for the treatment of pain or anxiety shall, at a minimum, request and review a prescription drug monitoring report covering at least a one-year time period or another state's report, or both reports, when applicable and available, if the dispenser becomes aware of a person currently: a. receiving reported drugs from multiple prescribers; b. receiving reported drugs for more than twelve consecutive weeks; c. abusing or misusing reported drugs; d. requesting the dispensing of a reported drug from a prescription issued by a prescriber with whom the dispenser is unfamiliar; or e. presenting a prescription for reported drugs when the patient resides outside the usual pharmacy geographic patient population. 2. After obtaining an initial prescription drug monitoring report on a patient, a dispenser shall use professional judgment based on prevailing standards of practice in deciding the frequency of requesting and reviewing further prescription drug monitoring reports or other state's reports, or both reports for that patient. 3. in the rare event a report is not immediately available, the dispenser shall use professional judgement in determining whether it is appropriate and in the patient's best interest to dispense the prescription prior to receiving and reviewing a report. 4. For the purpose of compliance with subsection 1, a report could be obtained through a prescription drug monitoring program integration with software or also a board-approved aggregate tool, for which the NARxCHECK will be an approved tool. The national association of boards of pharmacy foundation's NARxCHECK service is a risk assessment tool for health care providers and pharmacists that accesses patient prescription information from prescription drug monitoring databases, analyzes the data, and provides a risk-based score that includes prescription drug monitoring program data and graphical analysis to assist in prescribing and dispensing decisions. prior to the initial prescription of any controlled substance, including samples, an optometrist authorized by the DEA to prescribe, administer, sign for, dispense, or procure pharmaceuticals shall authorize an employee to review or personally request and review the PDMP for all available PDMP data on the patient, and shall do all the following: (1) assess a patient's PDMP data every 12 months during the patient's treatment with a controlled substance; (2) review the patient's PDMP data if the patient requests early refills or demonstrates a pattern of taking more than the prescribed dosage; (3) review the patient's PDMP data if there is a suspicion of or a known drug overuse, diversion, or abuse by the patient; (4) document the assessment of the patient's PDMP data; (5) discuss the risks and benefits of the use of controlled substances with the patient; (6) request and review PDMP data on the patient if the practitioner becomes aware that a patient is receiving controlled substances from multiple prescribers; (7) request and review the patient's PDMP data if the prescriber has a reasonable belief that the patient may be seeking the controlled substance, in whole or in part, for any reason other than the treatment of an existing medical condition. An optometrist shall not be required to query the PDMP if any of the following apply: (1) the controlled substance is prescribed or dispensed for a patient who is currently receiving hospice care; (2) the optometrist obtains a report through a Board-approved risk assessment tool for health care providers that accesses patient prescription information from prescription drug monitoring program databases, analyzes the data, and provides a risk based score that includes PDMP data; or (3) the optometrist prescribes a controlled substance after the performance of a primary eye care procedure and no more than a 72-hour supply is prescribed.
- Use Effective Date(s): October 1, 2014 (pharmacies); April 1, 2014 (OTPs)
- Authority to enforce PDMP mandates: Regulatory/Licensing Board
-

Veterinarian Policies

- Veterinarian access to owner's prescription history Veterinary Icon on PDMP Report
- Criteria for veterinarian queries: first name, last name, and date of birth
- Reporting method:
- Reporting description:
- Data Fields: For veterinary prescriptions, a separate patient account/profile is created in the pharmacy software containing the animal/pet owner's name in the first name and last name fields and date of birth under species code enter Veterinary patient and under Name of Animal enter the pet's name. Use the owners date of birth in the DOB field, not the animals.
- Animal reporting specifications same as human patient
