| <input checked="" type="checkbox"/> Manual match | Interstate matching barriers: Other states do not have the ability to remove any patient matches that are not the healthcare provider's patient. TN healthcare providers do not have this issue because the patient from the other states are presented to them in a pick list and the provider picks the appropriate patient IDs to include to create the patient report. |

- Other match method TN offers a list of patients for healthcare providers to select appropriate patients to include in the report. An option to select "None of These" is offered if the patients listed are not the healthcare providers patient.
